Summary

Dynamics 365 Solution Architect with 8+ years of experience delivering CRM solutions across enterprise environments. Strong background in Dynamics 365 Sales, Customer Insights, and Project Operations, combined with Azure-based integration architecture and Power Platform delivery.

Experienced in acting as the primary point of contact between business stakeholders and technical teams, translating requirements into scalable, maintainable solutions. Proven track record across clients including Zurich Insurance Group, BDO UK, Irish Department of Justice, First Abu Dhabi Bank, and Mobily.

Hands-on expertise in solution design, system integration, and full delivery lifecycle, with a strong focus on performance, scalability, and clean architecture. Comfortable working in distributed teams and leading delivery across multiple workstreams.
